Eric Jeffrey commenced his first six pupillage in October 2024 under the supervision of Philip Misner.

Before beginning his pupillage, Eric worked in a criminal defence solicitors' firm in London. There, he went on to represent detainees in police custody in their interviews under caution and routinely represented clients for serious offending including violence and sexual offending. In that capacity, he gained valuable experience in client care, police procedure, PACE, and criminal investigations.

He looks forward to developing a practice that encompasses all areas of criminal law, with equal focus on prosecuting and defending.

Eric will be available to accept instructions from April 2025 when he starts his second six pupillage.
